

THE PROJECT STARLIGHT COALITION

June 4, 1995

William Jefferson Clinton
President of the United States
The White House
Washington, D.C.

Dear Mr. President:

We, the members of the Project Starlight Coalition, a group of American and international citizens working to effect a public disclosure on the UFO/extraterrestrial issue, respectfully request the following:

That appropriate members of the administration meet with members of the Project Starlight Coalition to review significant evidence and witness testimony related to the subject.

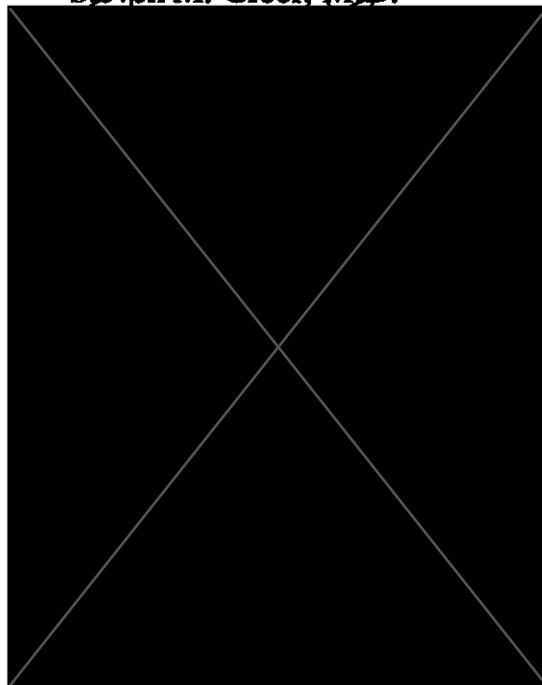

That the President issue an executive order to release U.S. government witnesses from their national security obligations/oaths related to the subject so that they may provide public testimony.

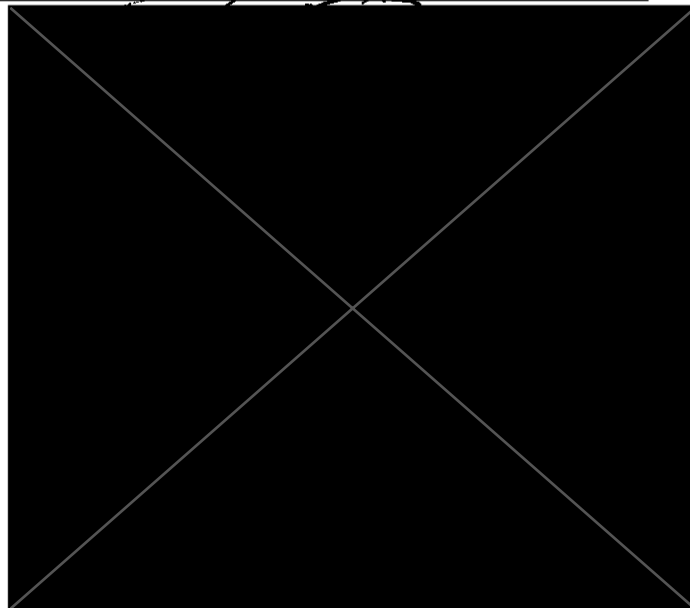

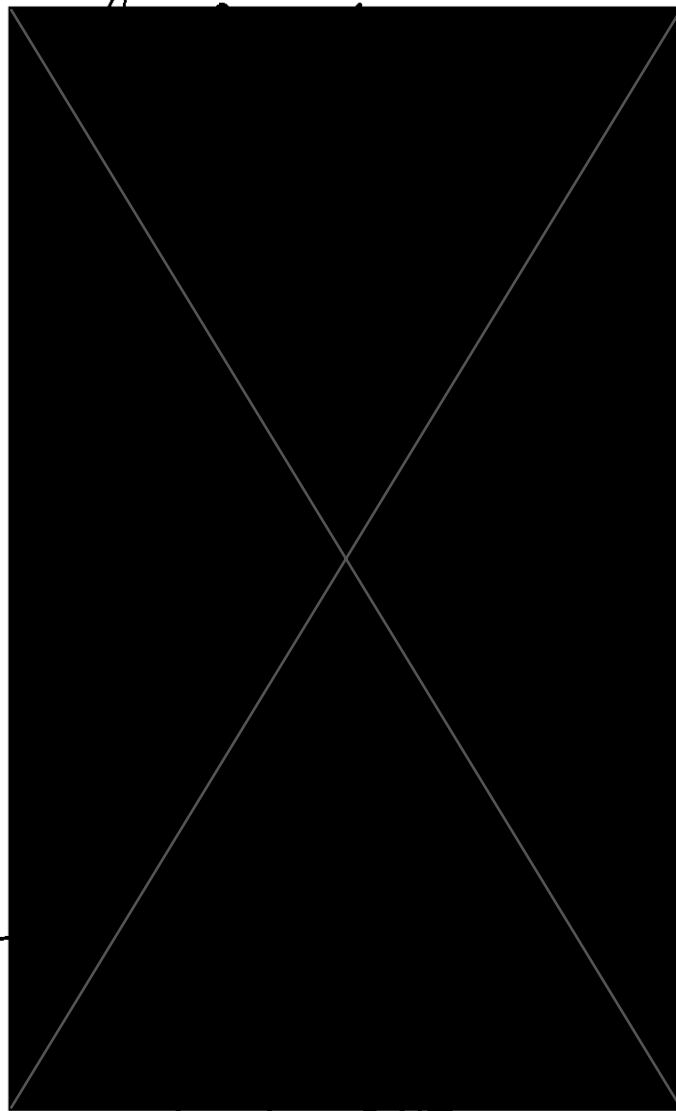

That the President issue an executive order to declassify and release currently classified materials, documents and evidence related to the subject.

We feel that these requests are consistent with recent administration actions which resulted in the release of classified information related to the Department of Energy, intelligence satellite photographs, and other documents. We recommend that this matter be handled expeditiously and we respectfully look forward to your reply.

Sincerely,

Steven M. Greer, M.D.

RE: August POTUS Meeting and Witnesses Amnesty

I hope you are well and wish you a relaxing and simultaneously productive vacation.

Regarding any possible meeting with POTUS, I would like to share a few brief recommendations for your consideration. They are offered in a spirit of wishing to provide assistance towards achieving an important common objective.

RECOMMENDATIONS

1. Amnesty/release from national security obligations for UFO witnesses should be for all witnesses up to a certain date (e.g. 1980) and not for only so-called Roswell witnesses, since most of these are deceased and data and memories are remote due to the age of the event. Most of the best witnesses which we have located, including astronauts and others, are witnesses to events after Roswell. Amnesty for Roswell only would set a restrictive and potentially dangerous precedent which could back-fire on the overall goal of disclosure on the subject.
2. We need a consistent point of contact (P.O.C.) from the Administration on this issue, perhaps Bruce Lindsey, since a member of our team is friends with his wife and he has already received an extensive briefing packet. Whoever the P.O.C. is, it would be helpful to have one assigned soon and to coordinate an initial confidential meeting between him/her and key witnesses, such as Astronauts Gordon Cooper, Edgar Mitchell, NASA Scientist Dr. Richard Haines, Lord Hill-Norton (UK), Dr. Greer and one or two others (such as Mr. Lovekin, witness).
3. An extensive briefing package (already sent to Lindsey and others) is ready and I would be happy to provide one to Mr. Rockefeller to give to POTUS. Moreover, on very short notice, I would be happy to come and present the evidence in a 30-60 minute meeting, if you feel that this would be helpful.
