Dear John;

It has been a long time since we have connected but I have always thought of you as a "bridge" person; one who sees the deeper meaning in people and events. I feel that the enclosed warrants your attention.

Dr. Steven Greer is a MD GP and is head of the Emergency Unit of a very large and successful Asheville, NC Hospital; has a very attractive wife who is active in their community and four little girls. What I am trying to say is that they are both very cogent and well grounded American citizens.

Several years ago, Dr. Greer formed a group called C SETI or THE CENTER FOR THE STUDY OF EXTRATERRESTRIAL INTELLIGENCE. He has attracted the attention of the government and certain branches of the Military by taking people whom he has trained to meditate with him as shortly after a UFO "sighting" as possible. He then and his group are able to "call the UFO's back to the same location; signal back and forth with lights, and sound equipment to the complete astonishment of the many witnesses...

His concept which he will be sharing at the Arlington Institute (a small, very effective "think tank" run by its' president, a futurist John Peterson, is interesting, particularly if there is even a shred of truth to his many photographs, videos and radar verifications; then it *is time* to notice this and to inform our media and the American citizenry. Interestingly enough, 10% of America believes in UFO's *and that they are extraterrestrial...* They can't ALL be nuts!

John Peterson and the Arlington Institute may be reached by calling [REDACTED] but I would appreciate your letting me know if you think that you would like to attend.

Dr. Greer's Briefing Document *is* brief and a quick read as well. I think that you will find it interesting!

I hope that this finds you well and in your usual good cheer. Do give us a call when you are in the New York area, it would be good to see an old friend!

Sincerely,

[REDACTED]
