

The Disclosure Project

March 13, 2001

Dear Mr. Pope,

I would like to invite you to participate in the Disclosure Project events to be held in Washington DC on May 8 -10, 2001.

As an important witness to UFO events, your presence is the key to the success of this disclosure, which is designed to put this subject on the radar scope of our national and international leaders, scientists and the mainstream, credible media. While each witness alone may be unable to establish the reality of this subject, many coming together can – and will. Here, the whole really is greater than the sum of its parts. Only military and government first-hand witnesses to UFO events and projects will be present. Collectively, their testimony will make an undeniable case for the reality of UFOs.

A major Washington DC media firm is handling media relations and we are planning on a significant response from the national and international media. These May events are designed as the beginning of a campaign to effect a real disclosure on this subject, and will be followed up by numerous other events over a 6-12 month period. Numerous members of Congress have stated that once the public and media become seriously interested in this issue, formal Congressional Hearings will be possible.

Between mid-April and May 9, we will be briefing select leaders of society, members of Congress, the Administration and others. They will be provided a videotape of select witness testimony (derived from over one hundred hours of testimony filmed since August) and a written briefing document with witness transcripts, government documents and important evidence and cases. These materials will also be made available to select news media. Please let me know if you or those in your circle have access to any VIPs who should be briefed before or after May 9.

A book containing select cases, witness testimony and evidence will also be released around this time so that the evidence and testimony will remain in the public focus for many weeks and months. Later, we hope a completed multi-part documentary series will be available. A sustained release of information, testimony and evidence over several months will be needed to effectively educate our leaders and the public about this important issue.

On the evening of May 8, we plan to hold a closed meeting to brief certain VIPs in Washington. We hope that you will be able to attend this meeting and provide a very brief summary of your testimony to those assembled.

The media team will also be arranging interviews with serious, mainstream media for the day of the event (May 9) as well as the following few days. We are recommending that, if at all possible, witnesses remain in the DC area through the evening of May 10 to allow for media interviews and follow up briefings with Congress and others.

I assure you that all events will be professional, serious and present only the most credible evidence and testimony to the public and the media.

We hope you can arrive by noon on May 8 and stay until the evening of May 10. We have limited funds for travel and lodging expenses; please let my assistant Linda Willitts know how we can assist you in attending these events.

If at all possible, please RSVP to Linda Willitts by April 1, 2001. She can be reached at: Phone: [REDACTED] fax: [REDACTED] e-mail: [REDACTED] Street [REDACTED]

Linda will be arranging travel and other logistics so feel free to contact her with any questions or concerns.

If you need to discuss these plans with me personally, feel free to call me at [REDACTED] or on my cell phone at [REDACTED] My email is: [REDACTED]

Your participation in these events is essential to our success and I hope you will be able to join the other witnesses in Washington, DC for this historic effort.

All my best,

Steven M. Greer MD
Director,
The Disclosure Project
