This message is for Dr. Steven Greer:

My name is EV, and I'm an activist, writer, and video-creator who works through the Anonymous Movement

[REDACTED] A colleague I work with – [REDACTED] [REDACTED] – has, I believe, made contact with Dr. Greer, and has asked if I'd like to work with him, due to my knowledge (more than most, but admittedly meager in the grand scheme of things), experience (which spans generations of my family), and interest (more like obsession) on the topic. I gladly agreed, in fact I've attempted to make contact with Dr. Greer in the past.

I am very interested in working with him to help get information out to the public. I watched a recent video that was uploaded to the Sirius Disclosure YouTube channel, "The Cosmic False Flag," in which Dr. Greer mentioned getting information out to the younger generations, and I think I can assist with that. We have a following at Facebook close to 6 million now, a vast majority of which are in the "Millennial" age-range.

We all have our own personal experiences that have led us down our paths in life, and I believe many of us are who we are, and do what we do for a reason. There's no need for me to say this world is going through important transitions, so to speak; it's evident everywhere you look. And while things are almost certainly bound to get worse before they get better, it's my personal mission to help with this transition however I can.

Please let me know how I can be of assistance,

EV
