SOURCE [REDACTED]

On 12 June at 11:00 a.m. local time, a flying object was seen from Iranian Julfa [N 39-15, E 45-25] travelling on a course from Nakhichevan [N 39-15, E 45-25] to Iran/USSR. The object appeared to be a ball about one-half meter in diameter and had a tail one-half meter in length. It travelled at high speed at a height of about 2,000 feet and was visible for only a few seconds. The smoke trail left by the object drifted over Iranian Julfa from the USSR and consisted of a trail about 5 or 10 centimeters in diameter.

Field Comment: [REDACTED] also reported seeing a flying object at the same time and described it as being about the size of a football and moving at a height of 2000 meters. He said the smoke track left behind the object was visible for about 15 minutes.
