SUBJECT: Disc-Projectiles (Flying Saucers)

I came here, clearly conscious of a difficult task, but not less conscious of a grave responsibility. This is the reason directing me as a dutiful man to take this decision. I am merely a servant of the matter in question, and ask for your attention, that you may feel as duty bound as I do.

To the Point:

1. During the War I was assigned to the R.A.G.N. and there I found out that Professor MAURER was actively working in the Crimea for the OKM (Navy High Command) on Atom research, which was not for the development of an atom bomb, but for the exploitation of atomic power for bomb propulsion. The object obviously being to achieve the greatest possible distances for projectiles. Towards the end of the war the Navy (German) carried heavy water to Norway, which must have been in connection with the other project, since the Navy herself had nothing to do with the development of an atom bomb.

2. Towards the end of the war I was assigned to the "KREMLIN", the sub-terranean armament factory in KAVIA vicinity JENA (ML/JSS), being under the control of the NSA, Commander SAUCKEL in charge. He was the special representative of the Fuehrer (Hitler) for the construction of Super-charged airplanes, for the recovery of air supremacy. In this capacity he (SAUCKEL) was also closely connected with the construction of the V-Weapons, but had no connections with the "KREMLIN" in this last respect.

3. My work in this factory enabled me also to acquaint and familiarize myself with the Rocket and Supercharger research processes, and with the V-Weapons which became known to you in the meantime, as well as the atom bombs. My knowledge about these matters concerned, has not promoted any active desires of exploitation within me since I left the (German) Navy before the capitulation, until recently, when the following happened: Two gentlemen, without any particular influence in life, had realized that they were gifted with unusual powers through which means they were able to converse with the world of spirits. This process, of course, is being done by means of a certain method, without any voice required magic, but with clearly legible drawings. You may feel fooled by my bothering you with witchcraft, while you are involved in very serious tasks. Nothing could be more unpleasant to me but to present the whole matter on this basis. But I unquestionably have to do my duty, and as unpleasant as it may seem I must lead you to these decisive consequences. I feel forced by my sense of duty, and that alone made me follow and take the way to you. I ask you to take the following as facts and test this data. I too was skeptical until certain things were revealed, which one could not overlook and do away with, unless he made himself guilty. My affiliation with these gentlemen led me to the following conclusions:

1. The completion of MATHER's research to a readily employable weapon, which already appeared over America, China, and Italy as the flying saucer, the most dangerous weapon in the world.
2. The connection of the Fuehrer (HITLER), who is still alive, with these tests.
3. The threatened destruction of all of Europe and America without the immediate intervention of the UN. For this reason, I must say:

(To number 1 above) Professor MATHER together with a professor KILBERG have continued research, and developed those discs which were seen in different parts of the world and disappeared again in recent weeks. The "Firoshis" were some time ago over the Nordic countries are the same discs, however not yet produced from the correct materials, which could not withstand the tremendous requirements. The following particulars were given concerning the new finished discs:

- (1) The firing of the discs is effected through round-shaped rockets, similar to those of the V1 and V2.
- (2) The speed is 1900 (nineteen hundred kilometers).
- (3) Size of the disc: $7\frac{1}{2} \times 5.45$ metres.
- (4) Normal setting for direction and course: 50-60 000 km. Maximum return of disc to base.
- (5) Indirect control steering up to 5 000 km.
- (6) The discs which have appeared up to now are trial discs, with a weight of 275 $\frac{8}{10}$ kg, when loaded for action the disc weighs $\frac{1}{2}$ kg more.
- (7) The firing bases were recorded.
- (8) Until 27 August 1947 no more discs will appear, on the 27 August 47 new trial discs will appear over TEXAS CITY, and over KINSALE.
- (9) The fuel is: Heavy water - steam.
- (10) Exact sketches of the disc, extensive explanation of all required and necessary particulars, e.g. solution of the flying problem, of the indirect steering system, of the charge and the type of driving power.
- (11) Radius of destruction when used on the ground: 300 km.
- (12) Radius of destruction when dropped from plane: 2 km.

(To number 2. above) The Fuehrer (HITLER) is at the present time with his specially built U-boat at the launching site. The U-boat - it was reproduced - attains a diving depth of 90 meters due to a special construction consisting of several walls, and is a German special construction. (I still know from the Navy (German) that a specially designed boat was being built for the Fuehrer). He will prove to the world that he could have destroyed her. The exact minutes of the position of the boat and the location of the launching site were recorded. The boat of the Fuehrer was until recently located between Cape Horn and the Cape of Good Hope, where it was supplied from the air by a long-range airplane of a foreign power. The supply problem was solved in such a way that two other planes were carrying the fuel for the third supply plane. New tests will begin on 24 September 1947, with the disc projectiles being correctly traced as to their location. The tests in question are going to be attended by the Fuehrer, and are going to be the first tests for underwater launching of projectiles. The exact location of the plane was well tabulated.

(to Number 2, above) The use of the discs will lead to the complete destruction of all of Europe. The US will suffer from the destruction in the following areas: NEW YORK, CALIFORNIA, TEXAS, WISCONSIN, and an additional 9 (nine) other states will be destroyed at a set time. Immediate secret intervention by America will prevent the destruction of the world. A part of Germany will be destroyed through "SCHITONIT", namely in a circumference of 300 km around KASSEL. The remainder of Europe, including England, will suffer heavy destruction from this fight. America then will only suffer damage within a radius of 100 km in depth, and 50 km in width, and not complete destruction as mentioned in the previous paragraph. This destruction will be caused by a disc ten times smaller, and this "SCHITONIT" bomb will be dropped from inside America. (The date and time was specified by the spirits). Immediate intervention possible only, if I will be introduced to General CLAY today or tomorrow (5th and 6th August respectively), since it was also shown (by the spirits?) that General CLAY will be in FRANKFURT this week.

United States "Dakota" fighter planes, -- I do not know whether this type exists, must be on their way by the first of next month in order to reach the new launching sites, and collect the Peckner and BOMBER.

Substantiation of Evidence: (as obtained from the spirits?)

In order to furnish proof to you, in reference to things previously unknown to me, the following data was given by the spirits about the development of the atom bomb:

1. The secret code name for this project was "SCHITONIT". This was being developed by the IG FARBEN and manufactured. Of the bombs, 6 (six) were found by the US in Germany, and they were being constructed by KRAFT and BLOCH & VOSS (KARLSRUHE).

2. This bomb is being called the "Big Atom Bomb", and is being manufactured in two factories in the United States, located in Ohio and in the State of New York. The bomb has the approximate size of an apple, is being used as a "release bomb" (Wurf Bombe), with an effective radius of 300 km, as of to date. At the present time atom bomb tests with VI and VII are being held in Ohio.

3. For the use of the atom bomb, special airplanes are being built in a factory in Ohio since the middle of 1944. The first bombs dropped on Japan were simply dropped by a standard-type aircraft. The light weight of the bomb necessitates a special ejector mechanism, therefore the special planes do not use a bomb-bay, but eject the atom bomb through an air-compressed ejector mechanism. The effect of the radio effective rays released, is equal to the destructive radius, and brings about cell destruction. The formula for "SCHITONIT" was also marked down. Weight of the airplane is approximately 1200 metres.

4. Those of the compressed air projectiles which were used at KERN ENRIE (Belgian Fortress), and at the LUNIGRAD front, were found in a dump by the Americans and the British at the coast (North Sea coast?), and in SWEDEN. I had knowledge of this last dump-- and another dump was discovered by the Russians in the Crimea.

Conclusions:

My personal knowledge and experience enabled me to follow up these matters, and permitted an objective evaluation of the information. You yourselves can easily establish whether the information about the atom bomb is correct. They are military secrets, and therefore I wanted to avoid a written memorandum, but wanted to leave the decision exclusively to General SLAY. I do not feel authorized to disclose secrets of the US Army. Since there was no other way to see General SLAY, this way was the only other possibility.

Now it depends upon the following:

I am only willing to give the final information to General SLAY, otherwise it would have been better I would have remained silent, in case this matter is not being followed up. About this matter no one else can decide. Therefore I repeat my request; to be permitted to speak to General SLAY immediately. I have gone to the possible limit to furnish information without inviting the danger which I cannot stop or ward off. You will scrutinize the information objectively, and you will want to know little about the spirits. But I must also tell you objectively and to the point, that I am not under any oath not to disclose US military secrets, and there are several other offices which would pay any price to learn of the matter in question. I want to demonstrate to you that I am conscious of its far-reaching importance, and the possibility of such attempts, and I wish to impress upon you the possible dangers. I came to you as a man of responsibility and honor, who also kept his record clean in the Third Reich, and is proud of it. There is nothing false about me; I am unbiassed to my task. I am not possessed by the madness of trying to save the world. Neither am I a Nazi in disguise, who must mask his knowledge of the past, in order to trick his wretched conscience. I want only one thing of you; that you track down this matter which was intended as a warning to you. I have shown you, that in your hands lies the fate of your own country and the world, and the life or death of a hundred million human beings. You would not have realized it more clearly, nor could you have coped more competently with it, had the events inexorably, bit by bit, come upon you. The full responsibility lies today with you. I could not keep my knowledge to myself. I did my duty, which was far more difficult to accomplish than to just forget about it. I shall do without pause everything possible, in order to bring you to realize this fact. I believe that the important factor is not myself but the thing in hand...I serve history and God, and thereby Humanity. It is not for my sake, but for the cause, and I do not intend to convince you, but you are free to obtain your own information in writing, from these two gentlemen, so that you may judge for yourself. Very objectively considered, it is true that no one was ever offered a better deal; that for the trouble of a journey he could save his future. Whereas I run the risk of being made a fool, although I am very sensitive about this fact, besides, I am risking my reputation, while being in the middle of my examinations, and also risk the well-being of my family, although I am in dire need of a livelihood as a bombed-out and poor student who has previously lost his livelihood three times under the Third Reich.

translation -BERNHARDT, Guido, 22x14.

Above all this, I am also endangering my personal safety. That I come to you is a result of the fact, that I, as a historian, see things in a different light. It is no more important who possesses the world, from a historical or political point of view. Possession is a ~~question~~ ^{matter} of power which guarantees world development and a future, and this means under the present influence of power, the United States of America, which is being confirmed by the coming (of the spirits?).

It was told to us (by the spirits?) that you would hardly have any faith in facts derived from such a questionable source. But it was also explained that after a submission of facts before General CLAY, he would have the facts verified through his adjutant on Saturday/Sunday of this week. It was explained that the adjutant was well versed in German. Kindly realize that this offers us the possibility to obtain information previously unobtainable, completely disregards all safety of security, whether they are of any political nature, militaristic or of a personal nature or plans. Our conference is being watched as well, and continuously recorded mentally.

There are in the world today eight (8) persons, who possess the ability to communicate with the other world. None, except those mentioned, have the ability to advance to the last and highest degree. They only possess this power since the death of a 96 year old priest in TOKIO, named SUKAIRO, who died in TOKIO on 12 July 1947. He was politically disinterested and left nothing of importance behind. This information can be checked upon. With the death of this priest the power (of spirits?) has gone over to the gentlemen known to me.

I know that I ask something almost impossible of you, to have an audience with General CLAY, but kindly realize that no loss is asked of me, if the only way to fall on me to arrange these things. It should be clear in any case, that with the knowledge I possess I could have reported, and still can report endless mischief. Since this has not taken place, it should be sufficient proof to you that I am exclusively concerned about the case. If it should also concern you, then the adjutant can convince himself without any cost, and without the slightest risk. Once again I stress the fact that I am perfectly prepared to give my complete knowledge to General CLAY. But more than ever do I refuse to reveal any of my knowledge to any other office.

I shall be available until the end of the week in the "Redstock Dealer" for an interview with the adjutant. I end my account with the last words which the deceased President ROOSEVELT gave me: "Courage, German man, fight for the Stars and Stripes."

Dated: FRANKFURT, 5 August 1947
