Dear Mr. Hennessey:

This replies to your letter requesting information on certain documents pertaining to unidentified flying objects (UFOs). At present, I do not have any information to send you on the September 23, 1947 letter about which you inquired.

Regarding the 1948 "Estimate of the Situation," the late Captain Ruppelt in his book, The Report on Unidentified Flying Objects, provides the answer. The Top Secret Estimation was working its way up to the higher echelons of the Air Force. It got to the late General Hoyt S. Vandenberg, then Chief of Staff, before it was "batted down." The General wouldn't "buy" interplanetary vehicles. The report lacked proof and the Estimate died a quick death. Some months later, it was completely declassified and relegated to the incinerator. I am sorry, but we have no copies of this document.

I have attached two more copies of the 1953 Panel's conclusions; I am sorry that our copies are of such poor quality. Regarding a photostat of the original signatures, I can only repeat what I stated in my February 23 letter, since this was not an Air Force report, we do not have a photostat of the Panel's original conclusions bearing their signatures.

Sincerely,

George P. Freeman, Jr.
