NOTE:

[redacted] described as sober, dependable, mature,
and not known to engage in flights of fantasy reported seeing an
unidentified flying object rise from the earth with a roar, emitting
bluish and orange flames and disappear over a distant mountain. When
he reported his observations, representatives of the local law enforce-
ment agencies searched the scene and noted four small irregularly
shaped smouldering areas and four regular depressed areas at the site.
The unidentified flying object was described as oval shaped; about
twenty feet long; with a red insignia; there is no indication in the
referenced teletype that Air Force had been advised. Our policy is
not to investigate but assure that Air Force is cognizant. Military
is investigating and Albuquerque Office is maintaining liaison.

[redacted] on 4/27/64, advised that on 4/26/64, he had met [redacted] at Santa Fe, New Mexico, and both proceeded to La Madera, New Mexico, to check out [redacted] observations. He stated that at the scene there was still some smoldering material. He noted that there was miscellaneous rubbish in the area and the site may have been a dump at one time. In his opinion, some material, such as a can of paint, could have caught fire and exploded. He also noted that

[redacted] had an odor of alcohol about him. [redacted] stated he would advise the FBI, Albuquerque, of any pertinent developments.

It may be noted that New Mexico State Police Sergeant M. S. CERVEZ and Socorro County Undersheriff JIM LUCKIE on 4/24/64, advised that they answered [redacted] radio calls and went to the site quickly. They noted several small burning areas at the site and the indentations. No one else was noted in the area. [redacted] a well regarded and capable [redacted] was noted to be perfectly sober and thoroughly frightened.

SA D. ARTHUR BYRNES, JR. was at Socorro, New Mexico, 4/24/64, and had noted the four irregular burned spots and the four indentations at the site. SA BYRNES immediately advised Captain R. T. HOLDER, Up Range Commander, Stallion Range Center, Socorro, New Mexico. Captain HOLDER, along with [redacted] and SA BYRNES checked the Socorro site and interviewed [redacted] at length. [redacted] observations were taken in the form of a statement. A copy of this lengthy statement is retained at the Albuquerque FBI Office as well as a small sample of charred material taken at the scene.

An unusual observation made at the Socorro scene was that there appeared to be no "blast" effects. Between the burned spots were unburned areas, including patches of unburned brown range grass.

A2 62-1028

It may be noted that Captain HOLDER immediately contacted proper military personnel concerning this incident.

Liaison will be maintained with [redacted] who advised he has received several more reported incidents to which he will give attention.

UNIDENTIFIED FLYING OBJECT
SOCORRO, NEW MEXICO
APRIL 24, 1964

Arthur Burns or Byrnes

Special Agent [redacted], Federal Bureau of Investigation, stationed at Albuquerque, New Mexico, was at Socorro, New Mexico, and at the State Police Office there on business late afternoon of April 24, 1964.

Rep Lopez

At approximately 5:45 to 5:50 P. M., [redacted] radio operator in the Socorro County Sheriff's Office, located about thirty feet down the hall from the State Police Office, came into the State Police Office.

[redacted] advised [redacted] New Mexico State Police [redacted] had just received a radio call from Officer [redacted] to come to an area about one mile southwest of Socorro. The call was in relation to some unknown object which "landed and has taken off." Agent [redacted] finished his work in the State Police Office at Socorro at approximately 6:00 P. M., April 24, 1964, and thereafter proceeded to the site where Officer [redacted] Socorro County Undersheriff [redacted] Sergeant [redacted] and Officer [redacted] New Mexico State Police, were assembled.

Copy?

It may be noted that it has been the observation of Agent [redacted] that Officer [redacted] known intimately for approximately five years, is well regarded as a sober, industrious, and conscientious officer and not given to fantasy.

Officer [redacted] was noted to be perfectly sober and somewhat agitated over his experience.

Special Agent [redacted] noted four indentations in the rough ground at the "site" of the object described.

UNIDENTIFIED FLYING OBJECT

by Officer [REDACTED] These depressions appeared regular in shape, approximately sixteen by six inches rectangular. Each depression seemed to have been made by an object going into the earth at an angle from a center line. Each depression was approximately two inches deep and pushed some earth to the far side.

Inside the four depressions were three burned patches of clumps of grass. Other clumps of grass in the same area appeared not to be disturbed. One burned area was outside the four depressions.

There were three circular marks in the earth which were smooth, approximately four inches in diameter and penetrated in the sandy earth approximately one-eighth of an inch as if a jar lid had gently been pushed into the sand.

No other person was noted in the area the night of April 24, 1964. No other objects were noted in the area possibly connected with the incident related by Officer [REDACTED]

So far as could be noted, there were no houses or inhabited dwellings in the area or in sight of the area.
