Dear Larry,

I saw your organization mentioned in UFO Magazine. I am sure you will be excited to learn that we are planning to open a UFO museum here in Reno, Nevada in April 1991. It would seem that our two organizations have much to offer each other.

We are still in the early planning stages, so any input from you would be more than welcome.

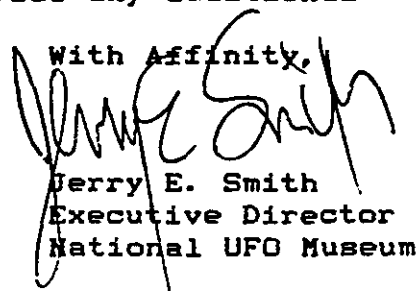

Our plans for the museum proper include a variety of displays and exhibits that will tell the UFO story to the general public. It is the official opinion of the museum that aliens are among us. However, we fully intend to document and display other theories and solutions to the enigma of UFOs. We will also occasionally spotlight a group or organization, yours could be one. I expect that periodically we will also feature displays on other unsolved mysteries. But, please note, our interest is serious and scientific, not mere curiosity seeking. While the museum will be a tourist attraction, it will not be a 'tourist trap'.

Additionally, we plan to have a bookstore and gift shop. In it we hope to sell a wide variety of books and magazines on UFOs and related topics, and not just the usual tourist junk. I would like to see your publication(s) on sale in our bookstore. Please contact our Merchandise Director with your terms and conditions.

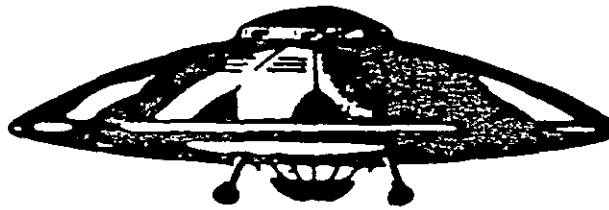

We also plan to have our own in-house research and publishing department that will not only track down UFO data but will be a growing archive that will service the UFO community. It will regularly publish its findings in the museum's newsletter. We will be publishing original books as well as an annual calendar of UFO history and upcoming events. The information your group has developed would be a fantastic addition to our database, and of course, our data would be made available to you.

I hope this has given you some idea of what we have 'up our sleeve'. Please let me know if I can provide any additional information.

With Affinity,

Jerry E. Smith
Executive Director
National UFO Museum

News Release

For Immediate Publication

A museum of UFOs has been a dream of UFOlogists for years. Now it is becoming a reality.

The **National UFO Museum** is a project to educate the public about all aspects of the UFO phenomenon, and is slated to open its doors to the public in April 1991, in the popular resort city of Reno, Nevada. It will be the world's largest repository of evidence of UFOs, including photos, documents, artifacts and displays. There will be extensive archives and exhibits on such controversial topics as flying saucers and the beings who control them, crash sites, government coverups, hidden alien bases and other subjects of interest to UFO buffs and the general public.

In addition to the public exhibits the **National UFO Museum** will also feature a bookstore and gift shop specializing in UFOlogy publications and products.

The **National UFO Museum** will also have a research department doing original investigation into UFOs, and producing its own books and literature.

The **National UFO Museum** will have a very modest general admission, as its mission is to present UFO data to the world. A range of supportive membership levels are also available for the more active UFOlogist. Membership would include discounts on admission and bookstore items, as well as a subscription to the **National UFO Museum's** newsletter.

For more information contact Jerry E. Smith, Executive Director.
