SUBJECT: MJ-12 EXPLAINED

To All:

The Classified UFO retrieval Operation was not called OPERATION: MAJESTIC-12. It is my honest opinion that the recovery operation was under the National Defense Research Committee (NDRC). There was a section 12 in NDRC which was labeled "Transport". I believe MJ-12 was a hoax played by the Federal Government with the cooperation of one Jaime Shandera. I am sure that the operation was carried out under NDRC. I mean no offense to Shandera, but I believe the MJ-12 documents are indeed fake.

The text of these documents may have very well been lifted from another highly classified document, but it just does not stand up on it's own merits. Some of the names on the paper are indeed prominent men, but I really see no general connection to them and NDRC.

I would also appreciate any information regarding any connection with these people to NDRC. I am trying an angle with NDRC to see if the recovery operation was indeed carried out.

I personally think this whole thing about Classified UFO recovery Operations is pretty true although greatly subsceptible to Disinformation Operations.

Thank you for your time. -Brent Hale DPSS74C-
