The witness to this info is the second witness to the Poland Spring, Maine case.

Hello this is [REDACTED]

I have additional information about possible Skunkworks in a secondary location in Maine. This one is in Carrabassett Valley. Home of Sugarloaf ski resort. Aka Longfellow mountains. There is a "Closed" airbase in Reddington, ME. 3 craft in the sky at night. Doing different things. One is reported doing a zigzag flying. Like there scanning an area. Like Making a grid, if that makes sense.

The U.S. Government is still using this "Closed" base. They use in secret. They use the Maine mountains for "Training" so they claim. There is alot happening in the Forests of Maine .

I hope this new useful info for you.
