Hi Steve

It's been a long rocky road of one deceptive individual after another in the energy field and I have after so much time and money lost let go of that one.

Speaking of deceptions, I wouldn't be surprised if [REDACTED] as as shes done with everybody else in the UFO community such as Steve Bassett and others saying that "I am CIA" (*If I was I'd have a paycheck coming in to finish this dome*) and to not do anything with me that I am a "betrayor" etc as she's done with everybody else whose had to disconnect from her toxic back stabbing as well as terrorizing my wife. Its sad, I'm sure shes done this CIA thing with you also, I'm just assuring you I'm not CIA.

But this is not the reason for the email.

Back in 2001 when CBS interviewed me, I told them that I wouldn't do the interview unless I could state on the air that the Disclosure Project has witnesses within the black projects, that if relieved from their national security oaths, can prove we have solutions to the energy crisis in an open congressional hearing. Of course that was sanitized out by "the higher executives" according to the producer who apologized. I want to know if that is still a valid statement since I am going on the record stating that with my current interviews? My focus has always been on media control since my background was an ABC newsman.

Great job on the Sirius film and your CHD testimony with [REDACTED] I've been pretty much a hermit with Rebecca since we've experienced too much as you used to say "brain damage" with individuals. As always I remain loyal to the cause.

Kind regards to you and Emily
