Dear Steve:

Thank you for your recent letter seeking funding for taping and videotaping of witnesses in regard to UFOs and extraterrestrial intelligence. This is, obviously, a potentially interesting project, but at the present time, I am significantly reducing my participation in this area. Thus, I am not able to be supportive.

We were terribly distressed to hear about your illness. Our best wishes and deep concern go out to you, along with our hopes for a speedy and complete recovery.

Sincerely,

Laurance S. Rockefeller
