

with full journalistic documentation a bit more of that most interesting time we all shared in 93/94. Given what apparently happened with you and "Bootsie" and her gang of BSW (Fund for UFO Research & FATE Magazine) thugs, I hope when you tell your own story about your "UFologicality," it dovetails factually and eventually a wider picture emerges.

How is your health? What else is up (no pun intended)?

old news re: Clinton: we have been briefing high level Friends of Bill for nearly 4 years (quite independent of LS Rockefeller et al) and know of the interest there. A high level though quiet inquiry has been on-going for some time. We have tried to provide the best info and assessment possible and suspect other (counter-intelligence) sources have provided little info. or carefully crafted disinformation. S Greer M.D.
